GP Recruitment

Applications for GP ST1 recruitment are now open and are made through the NRO website. For applicant guidance CLICK HERE

National Institute for Health & Care Excellence (NICE) Fellowships & Scholarships Programme

The National Institute for Health and Care Excellence (NICE) Fellowships and Scholarships Programme is now open for applications from health and social care professionals.

NICE Fellowships work to raise the profile of NICE and encourage adoption of high-quality care and innovative practices. NICE Fellowships are suited to medical and clinical directors, directors of nursing, heads of midwifery, directors of finance, leaders of integrated services, heads of services for the allied health professions, directors of adults and children’s services, and other leaders in social care. Fellowships last for three years.

NICE Scholarships allow individuals to find out about the inner workings of NICE and undertake a supported improvement project related to NICE guidance. NICE Scholarships are suited to senior social workers and practitioners, registers and managers, public health specialists, senior nurses, midwives, and allied health professionals. Scholarships are project-based and run for twelve months.

NICE Fellowships and Scholarships are unique opportunities which can support an individual’s professional development, through a range of opportunities within NICE as well as direct training sessions. While places are limited we would encourage colleagues to apply. The closing date for applications is 15 December 2017 and more information is available at the NICE website: https://www.nice.org.uk/list-involved/fellows https://www.nice.org.uk/list-involved/scholars

ECHR Clinical Scenario Days

‘Clinical Scenario Based’ Sessions are taking place across Northern Ireland, in relation to the development and design of the Electronic Health Care Record. We value your opinions and feedback as future users of the system.

The morning session will involve looking at a range of clinical scenarios that the Encompass team would like feedback on in relation to how to establish a pathway using electronic health care records that would ‘best fit’ each specialty. We would value your expertise in terms of giving insight into what is needed from the system that will be provided.

It also will be a chance to air any views/opinions you all may have on ECHR.

You are welcome to attend the session in:
- Craigavon Civic Centre, Craigavon on Wednesday 22nd November, 9.30am - 1pm
- Waterfoot Hotel, 14 Clooney Road, Londonderry, on Thursday 7th December, 9:30am - 2pm
- Minshull Mill, Newtownabbey on Monday 11th December, 9:30am - 1pm.

Everyone is welcome.

If you can make an event, please contact Ms Ella Jameson, Project Manager for Encompass via email ella.jameson@hscni.net

You can also contact Dr Emma Cunningham, ADEPT Clinical Fellow, via ecunningham08@qub.ac.uk with general enquiries about Encompass/Electronic Health Records.

Mock CSA

ST3 Trainees - remember the Mock CSA is on the 7th of December at the Wellington Park Hotel, Belfast. See you then. We wish you all good luck!

Trainee Social Event

NI Doctors will be performing with the European Doctor’s Orchestra & Choir at the Ulster Hall 26th November. It is an opportunity to meet up with other trainees and support whose who are performing. If interested please email valentinestrainees@hscni.net

Trainee Roadshow

If you are a trainee or are interested in becoming one, come and join the NIMDTA trainees at the South Eastern Trust on Tuesday 7th December, 9.30am - 1pm.

NISFN Conference

The Northern Ireland Simulation and Human Factors Network Annual Autumn Conference was held on 20 October 2017. The theme for the conference was Theory into practice: Using simulation and Human Factors training to improve patient safety. The event was a great success, to read the full report on the conference CLICK HERE

Careers Fairs

Last month representatives from NIMDTA including ADEPT Clinical Fellows Lorraine Dossan & Rachel Campbell; and GPST5 Dr Grainne Ni Fhaithiagh attended careers fairs in Dublin and London to showcase medical and dental training in Northern Ireland.
