Northern Ireland Geriatric Medicine Training Programme

Specialty Registrar Job Description

Reports to:	Consultant Geriatricians in the employing Trust and the Postgraduate Dean
--------------------	---

Contact Information:	<p><u>Training Programme Director:</u></p> <p>Dr K Dynan Consultant – Geriatric Medicine Ulster Hospital Upper Newtownards Road Belfast, BT16 0RH</p> <p>Tel: 028 9048 4511</p>
-----------------------------	---

MAIN ACTIVITIES / RESPONSIBILITIES:	
Clinical	Trainees will participate in the routine clinical work as specified in the job description of the individual unit to which they are attached and as required; this will include responsibility for the care of older patients in all relevant settings, including acute medical care (emergency unselected admissions to a district general (DGH) or teaching hospital with all appropriate DGH facilities), rehabilitation, day hospital, out-patient and continuing care (whether in hospital or through liaison with community care services).
Managerial	Trainees will have the opportunity to develop managerial skills as they rotate through the various hospitals. Trainees should undertake a formal management training course during the final year of training.
Research	All trainees will be expected and encouraged to have an active interest in research and publication. This does not necessarily mean taking a year or two years out-of-programme to work towards an MD or PhD unless the trainee also wishes to undertake subspecialist training.
Audit	All trainees will be expected and encouraged to have an active interest in audit and will be expected to undertake audit projects during their training.
Education	All trainees will be expected to attend the various educational opportunities provided in their own hospitals and those provided on a regional basis. Trainees should also where appropriate assist in the training and education of others.
Assessment	Regular assessment of progress will be made during the period of training. There will be an annual ARCP assessment at which the trainee will be required to demonstrate evidence of satisfactory progress in order to proceed to the next year.

PLACEMENT ARRANGEMENTS:

Placements between hospitals are administered by the Regional Specialty Training Committee for the School of Medicine and are determined usually on a yearly basis according to the Trainee's educational and training needs. Trainees will rotate through the various hospitals and subspecialties within the Training Scheme. The Postgraduate Dean has confirmed that these posts all have the required educational and staffing approval. Excellent postgraduate facilities exist at all units.

Further information on hospitals in Northern Ireland is available at www.hscni.net

This job description will be subject to review in the light of changing circumstances and may include other duties and responsibilities as may be determined. It is not intended to be rigid and inflexible but should be regarded as providing guidelines within which the individual works.

Please note that the Health and Social Services organisations operate “No Smoking” policies and all employees must comply with this policy.
