

Funding Panel Oct 24 – Feb 25

Applications by Specialty

Funding Panel Oct 24-Feb 25

Applications by Trust

EDUCATION

- PGCE X 5
- Masters in Medical Education

CLINICAL SKILLS

- Endoscopic Sinus surgery x 2
- Regional Anaesthetic blocks
- Psychodynamic Psychotherapy
- Optical Coherence Tomography
- Paediatric Neurology course x2
- MSC – allergy and clinical immunology
- Dermoscopy course
- Cardiac CT course

MANAGEMENT

- Healthcare management, infection and antimicrobial stewardship

Education - Benefits

In Practice

- Develop teaching programmes
- Leadership role in Education
- Improve standards of teaching
- Become an educational supervisor

To the Team

- Design a simulation teaching series
- Expand teaching role in the department
- Training of future clinicians
- Fill an empty role of educational supervisor

To the Patient

- Improve patient care and outcomes
- Positive experiences lead to recruitment
- Better education leads to better informed students – the future clinicians
- Bedside teaching – patient education

Clinical Skills - Benefits

In Practice

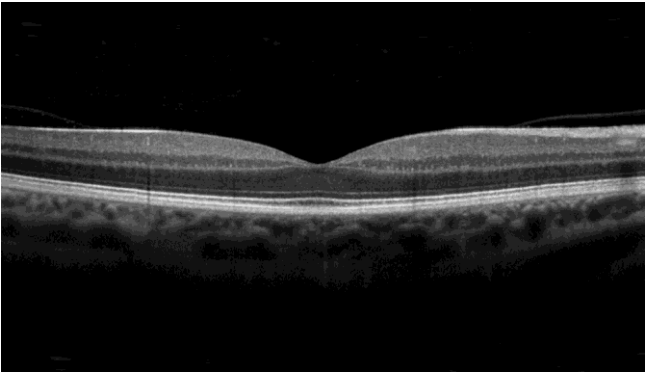

- To build towards independent practice
- Support portfolio pathway application
- Build towards a specialist grade
- Improve confidence in managing complex conditions

To the Team

- Independent practice – less reliance of consultant colleagues
- Progress to a consultant post in a specialty where more consultants are needed
- Expand clinical practice to offer an increased service

To the Patient

- Reduced waiting times for patients
- Keep practice up to date, maintaining highest standards
- Improve patient outcomes and reduce complications
- Better management leading to faster recovery

Optical Coherence Tomography

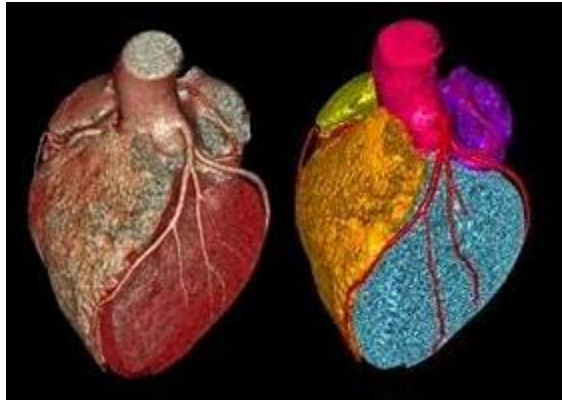

“direct access OCT will eliminate the need for the majority of referrals from Neurology to Ophthalmology and improve timely management of patients”

8 week course in
OCT

Gain an ability to
interpret OCT
scans

Benefits patients
with IIH* – provide
standardised care

*IIH = Idiopathic Intracranial Hypertension

Cardiac CT Course

"There are 584 patients on the waiting list for cardiac CT." Current team capacity allows for 42 scans to be reported per week.

5 day Cardiac CT Course

Level 2 qualification in cardiac CT reporting

Hope: to join the team of 4 cardiologists and 3 radiologists in reporting and reduce waiting times

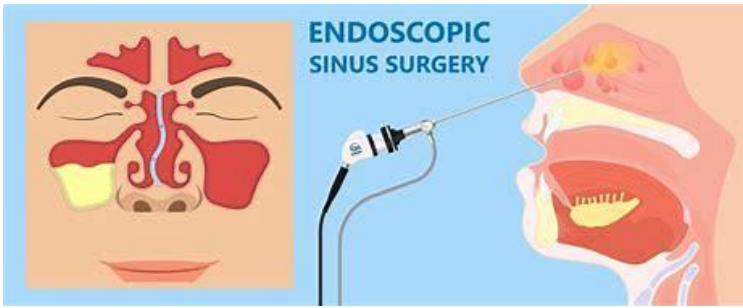

Psychodynamic Psychotherapy

“there is an absolute scarcity of Paediatric Psychotherapists within N.I. CAMHS departments”.

3 year course in
Psychodynamic
Psychotherapy

To progress to an
independent
practitioner in this
field

To progress to a
specialist post in
CAMHS

Functional Endoscopic Sinus Surgery

“This course will significantly improve my skills and allow me to confidently introduce basic endoscopic sinus surgery into my independent daycase lists at Lagan Valley Hospital”

2/3 day FESS 1 and
FESS 2 course

Learn to deal with
complications of
FESS and deal with
sinus emergencies

Improve operating
safety and
competency
