

## **Template for Reflecting on Your Patient Colleague Feedback [PCF]**

Beeches have forwarded me as your Appraiser your two reports for PCF – when you log on you should now be able to see both reports @ <http://www.beeches360.com>

GMC wants us as Appraisees to reflect on both reports which need to be done ONCE in a 5 year revalidation cycle

Your reflective discussion on each report should appear on Form3 areas –

### **Relationships with Patient**

**Main outcomes** - related to whole scope of practice?? Any difficulties delivery??

**What has been learnt from the report and the discussion?** Compare with the self-assessment; positive aspects; points which might require further action; any surprises in the survey; what was helpful/less helpful

**Action required (if any)** - How will the survey affect future practice?

### **Working with Colleagues**

**Main outcomes** - related to whole scope of practice?? Any difficulties delivery??

**What has been learnt from the report and the discussion?** Compare with the self-assessment; positive aspects; points which might require further action; any surprises in the survey; what was helpful/less helpful

**Action required (if any)** - How will the survey affect future practice?

### **Finally**

- Don't need to document percentages as these listed in the actual reports.
- It is anticipated that your reflection may be no more than a few lines.
- Many GPs will have little or no action required as a result of the survey.
- Remember to keep a copy of both reports in your portfolio of evidence.
